experience

Product Designer @ Handshake, New York, NY
June 2016 – May 2017

· Conducted stakeholder interviews with Handshake users and internal employees
· Designed high fidelity mockups in Sketch and created interactive web and mobile
  prototypes in InVision for web and mobile
· Collaborated with design team to create and spec screens for the company's first
  Android application, handing off assets to developers using Zeplin

Studio Member, Designer @ Scout Studio, Northeastern University, Boston, MA
January – May 2016

· Collaborated with a team of designers to create a new interface for Smartable.me
· Met with Northeastern Venture Accelerator client to ensure that business requirements
  were met
· Mentored young designers in user experience design

Design Engineer Co-op @ HubSpot, Cambridge, MA
January – July 2015

· Designed and prototyped UI of the Leadin WordPress plugin using Sketch and InVision
· Developed the front-end of screens using Jade, SASS, Javascript, and minimal php
· Designed, built and tested emails to send to Leadin users using INK and Litmus
· Created a working style guide for Leadin

UI Designer Co-op @ HubSpot, Cambridge, MA
January – June 2014

· Designed UI of various HubSpot software apps using Sketch
· Created high fidelity mockups for HubSpot and user-tested them using InVision
· Conducted research to redesign the onboarding flow for paying HubSpot customers
